

Applied Animal Science

Volume 38, Issue 2, April 2022

LETTERS TO THE EDITOR

- LETTER TO THE EDITOR: Regarding the article “Comparison of milk replacer composition and effects on growth and health of preruminant lambs, and health-associated costs of artificial rearing,” by McCoard et al. (2021)
Natalie D. Chrystal.....79
- Response to “Letter to the Editor: Regarding the article ‘Comparison of milk replacer composition and effects on growth and health of preruminant lambs, and health-associated costs of artificial rearing,’ by McCoard et al. (2021)”
Susan McCoard and Shen Hea82

FORAGES AND FEEDS

Original Research

- Nutritive value and storage characteristics of large-round bales of alfalfa-grass or perennial-grass hays treated with a propionic acid-based preservative at elevated application presets
Wayne K. Coblenz and Matthew S. Akins84

HEALTH

Original Research

- Effects of supplementing a *Saccharomyces cerevisiae* fermentation product on the prevention and control of digital dermatitis in lactating dairy cows
K. Anklam, P. Cernek, I. Yoon, J. Wheeler, T. Birkle, and D. Döpfer98

NUTRITION

Original Research

- Comparison of plasma methionine response to 3 rumen-protected methionine products in lactating Holstein dairy cows
M. Smith, S. Cronin, J. Mateos, D. Martinez del Olmo, F. Valdez, and T. F. Gressley.....110
- Finishing diets with Sweet Bran and wet distillers grains with solubles alone or in combination improve performance and carcass characteristics of feedlot steers
Paige R. Spowart, John T. Richeson, David M. Crawford, and Kendall L. Samuelson118
- Effects of cyclic monensin feeding on ruminal function in cannulated beef steers consuming low-quality forage
Kayla C. Hook, Richard V. Machen, David B. Wester, Kimberly C. McCuiston, Daisy A. Gonzalez, Alicia G. Hernandez, and Natasha L. Bell129
- Monensin and concentrate supplementation level affect forage ruminal measurements and forage in situ disappearance of bermudagrass fed to beef cattle
J. T. L. de Sousa, J. M. B. Vendramini, P. Moriel, J. M. D. Sanchez, H. M. da Silva, N. Alencar, L. F. de Sousa, H. M. R. de Oliveira, and E. A. Palmer.....141

Technical Note

- Validation of a portable, self-contained individual feeding unit for monitoring supplement intake of grazing cattle
Libby S. Durst, Kelsey M. Harvey, Kalisha C. Yankey, Logan M. Whipple, Jason R. Russell, and Reinaldo F. Cooke150

PHYSIOLOGY

Original Research

- Direct genomic value daughter pregnancy rate and services per conception are associated with characteristics of day-16 conceptuses and hormone signaling for maternal recognition of pregnancy in lactating Holstein cows
Bethany E. Liebig, Jeanette V. Bishop, Kevin D. McSweeney, Hana Van Campen, Carolina L. Gonzalez-Berrios, Thomas R. Hansen, and Milton G. Thomas.....157

PRODUCTION AND MANAGEMENT

Original Research

Exploratory observational quantification of liver abscess incidence, specific to region and cattle type, and their associations to viscera value and bacterial flora <i>R. T. Herrick, C. L. Rogers, T. J. McEvers, R. G. Amachawadi, T. G. Nagaraja, C. L. Maxwell, J. B. Reinbold, and T. E. Lawrence</i>	170
Can early weaning calves of first-calf heifers improve long-term herd and financial performance in a vertically integrated beef production system? A study application using system dynamics <i>Jase K. Taylor, Randy L. Stanko, Ryan Rhoades, Kimberly C. McCuiston, Clay Mathis, Richard Machen, and Benjamin L. Turner</i>	183
Assessing best management practice adoption by pasture-based beef producers: The Whole Herd Beef Risk Index <i>K. A. Hopkins, J. C. Swanson, and M. G. S. McKendree</i>	200
