

Applied Animal Science

Volume 38, Issue 5, October 2022

FOOD SCIENCE

Original Research

- Effects of harvest season on carcass characteristics of lambs in the Intermountain West
*J. R. Whaley, T. W. Murphy, C. L. Gifford, W. J. Means, J. P. Ritten, H. N. McKibben, C. M. Page,
and W. C. Stewart*393

FORAGES AND FEEDS

Original Research

- Cotton gin byproduct: Effects on feed intake, quality, and safety for use in diets of gestating beef cows
*J. L. Jacobs, M. K. Mullenix, J. C. Koebernick, S. L. Dillard, S. M. Justice, D. A. Tigue, S. P. Rodning,
and R. B. Muntifering*402

Short Communication

- Cottonseed characteristics related to beef cattle consumption: Protein degradability, digestibility, and gossypol content
*J. L. Jacobs, D. B. Davis, M. K. Mullenix, J. C. Koebernick, S. M. Justice, S. L. Dillard, R. B. Muntifering,
and R. L. Stewart Jr.*409

Original Research

- Using whole cottonseed to replace dried distillers grains plus solubles and prairie hay in finishing beef cattle rations balanced for physically effective neutral detergent fiber
K. N. Schneid, A. P. Foote, P. A. Beck, G. L. Farran, and B. K. Wilson417
- Grazing cotton crop residue to reduce winter supplementation cost in late-gestation beef cows and assessment of the negative effects of gossypol on fermentation of mixed ruminal microorganisms
D. B. Davis, S. R. Hernandez, H. M. Johnson, T. R. Callaway, and R. L. Stewart Jr.433

Symposium Articles

- INVITED REVIEW: Use of byproduct feeds in southeastern US beef production systems
Matthew H. Poore441
- INVITED REVIEW: Using whole cottonseed and cotton harvest residue in southeastern US beef cattle diets: Quality, intake, and changes in feed characteristics
M. K. Mullenix, R. L. Stewart Jr., J. L. Jacobs, and D. L. Davis447
- INVITED REVIEW: Rise of craft distilleries in the southeastern United States increases bourbon-distillery feedstuffs as supplement for beef cattle
J. W. Lehmkuhler and E. S. Vanzant456

GENETICS AND BREEDING

Original Research

- Comparison of oocyte collection methods using caprine ovaries and in vitro embryo culture
Tasmina Akter, Md. Munir Hossain, and M. A. M. Yahia Khandoker466

NUTRITION

Original Research

- Effects of supplement type during the pre-finishing growth phase on subsequent performance of Nellore bulls finished in confinement or on tropical pasture
*Adriana Cristina Ferrari, Andressa Scholz Berça, Maria Luisa Curvêlo Silva, Rhaony Gonçalves Leite,
Erick Escobar Dallantonia, Eliéder Prates Romanzini, Rondineli Pavezzi Barbero, Abmael da Silva Cardoso,
Josiane Fonseca Lage, Luís Orlando Tedeschi, and Ricardo Andrade Reis*474
- Evaluation of an experimental bio-nutrient feedlot premix on health, growth performance, carcass merit, and prevalence and severity of liver abscesses in feedlot cattle managed under a natural feeding protocol
W. T. Nelson, M. E. Branine, T. C. Bryant, S. L. Archibeque, and J. J. Wagner487

PHYSIOLOGY

Original Research

- Extending melengestrol acetate feeding from 14 to 18 days during an estrus synchronization and artificial insemination protocol for March-calving beef heifers
Dempster M. Christenson, Jordan M. Thomas, Dan J. Kelly, and Rick N. Funston499

Short Communication

- CASE STUDY: Combined risk factors and digestive disorders in mid-lactation Holstein cows
S. T. Quanz, K. E. Griswold, L. K. Mamedova, S. K. Kvidera, M. J. Brouk, R. S. Fry, and B. J. Bradford505

PRODUCTION AND MANAGEMENT

Original Research

- Economic feasibility of extruded dried distillers grains cube as a supplement for beef steers grazing introduced mixed-grass pastures
Jordan M. Adams, Rodney Farris, Scott Clawson, Earl Ward, and Paul A. Beck518

CORRIGENDUM

- Corrigendum to “Risk factors for mid- and late-feeding-stage bovine respiratory morbidity and mortality based on individual animal treatments of beef feedlot cattle” (*Appl. Anim. Sci.* 38:360–372)
Kristen J. Smith, David E. Amrine, Robert L. Larson, Miles E. Theurer, Josh I. Szasz, Tony Bryant, and Brad J. White531
